SILVER Democrats are full of har-
mony that does not harmonize.

CATTLE and hogs are in good de-
mand at good prices, and that too
under the "gold standard fastened
upon us by Egland."

FARMERS may shortly expect a
better price for their wool. The in-
crease in price will be due to the wise
tariff laws of the Republican party.

On last Tuesday a bill was intro-
duced in the Legislature creating the
31st Judicial District, composed of
the counties of Hancock, Ohio and
Muhlenberg.

MAJOR Crumhaugh is the first ap-
plicant to file his papers for the Col-
lectorship in this Revenue District.
Verily! verily, I say unto you, the
first shall be last and the last first,
etc.

If a young man meets with a re-
verse in his courtship, (and all en-
gage in courting to a greater or less
extent,) he can attribute it to our pre-
sented financial system and "cuss" the
gold standard.

THE adversities of political life
have retired to private life at the
same time, the Hon. J. G. Carlisle
and the Hon. J. C. S. Blackburn. In
all probabilities neither will ever
again appear in public life, as ser-
vants of the people.

MARK Quartets are growing in
popular favor, and with a little patient
training from or more young men can
make good music. Every town the
size of this ought to have enough
musical talent in it to furnish one or
more good male quartets.

If a ship strikes the rock, there is a
critical time. When it is not too late
to come ashore to pieces by the fury
of the waters and wind. The Democ-
ratic party has stranded on the rock
and no relief is near. On the other
hand the storms grow more severe
about the old ship. Utter despair
and complete destruction stare the
wretched party in the face. It is last
going to pieces on the rock of its own
folly.

PISO'S CURE FOR

BRUISES, SWELLINGS, AND ALL
PAINFUL AFFECTIONS.
It is the only medicine that cures
these diseases without the use of
drugs, and is the only one that
is safe for the most delicate
constitution.

SENATOR Jno. P. Halyer, of Morgan
county, member of the Kentucky Sen-
ate died at his home Sunday morning.
An election has been called to fill the
vacancy caused by his death.

THE roads of this State are bad.
Their deplorable condition is doubt-
less due to the "crime of 1873" which
"struck down silver," thereby "cut-
ting our circulating medium in too."

SILVER Democrats cannot deny
that they have deserted every princi-
ple they once endorsed, and have
made an unholy alliance with a party
they once despised and held up to
ridicule and scorn.

DEMOCRATS make much comment
regarding the hustling of Republicans
for pie. The character of this com-
ment is such as to warrant the con-
clusion that Democrats regret that
they can have none for themselves.
It is this feature which pains them
most.

It is gratifying to Republicans to
know that President McKinley's ad-
ministration will use all its power to
restore to us a protective tariff. It
is a want of wholesome tariff laws,
and not the financial question, that
has placed us in such a bad way finan-
cially and commercially.

It is true that Republicans are
showing considerable interest regard-
ing appointments to office by the
new administration. But when the
matter is rightly and candidly con-
sidered, it can be clearly seen that
the good, easy jobs to be disposed of
are enough to make the average citi-
zen's mouth water.

THE continued rains are delaying
farmers in their preparations for this
year's crop. If the delay is such as
to make a short crop, free silverites
will attribute the hard times arising
from the failure, to the present "gold
standard which has been fastened up-
on us, resulting in a striking down of
half of our circulating medium."

Wonder how gum-elastic W. God-
frey Hunter stands on the money
question now? Here is the pledge to
which he signed his name a year ago,
in order to secure two Populist
votes.—[Hartford Herald, March 17,
'97.

Wonder how the *Herald* stands on
the Populist platform. Let's see in its
issue of September, 27, 1893, it says:
"Ben Birkhead and Tom Pettit,
who two years ago were upholding
all the absurdities of the Populist
platform, are now running over in
Davies county as 'Independent
Bols' And are the people of Da-
vies county so very stupid as not to
see through the gauzy covering of
hypocrisy which so scantily conceals
the self-seeking schemes of that pair
of artful dodgers? Truly, a people so
easily hoodwinked must prefer to be
fooled. Why not elect some honora-
ble men to office, rather than that
combination, neither of whose history
in politics contains anything worthy
of a man?"

Of course such gigantic minds as
those that put up the "gray" matter
for the aforesaid sheet are not respon-
sible. What is the difference in the
Populist party now and the Populist
party in 1893? Why don't you cry
out now to elect some honorable men
to office, as you say, instead of the
poor, measly course you are pursuing?
If the Populists were artful dodgers in
1893, what are they now, when they
hold to the same teachings that they
did in 1893? Do you mean to call
the people of Ohio county stupid and
filled with hypocrisy? All these
things are being investigated and the
truth will be told.

REPUBLICAN POPULISTS.

By Republican Populists, we mean
those who were once Republicans,
but who are now Populists, and are
being delivered by the Populist party
into the free silver wing of the Democ-
ratic party, body and breeches. We
have a word—a friendly word—to
say to these people.

The Populist party was organized
on the idea that the two "old parties
were corrupt and were no longer cap-
able of giving us a clean, efficient
government." Every effort was
made to show to voters that the Re-
publican and Democratic parties
were corrupt and rotten to the core.
A large quantity of ink was reckles-
sly expended to this end, and long
winded orators screamed and howled
about it on the stump. Bearing these
facts in mind, those Populists who
were conscientious in their views,
strenuously objected to fusion with
either of the old parties which they
had condemned, and urged that it
was the duty of good Populists to keep
in the middle of the road.

The advice of those Populists who
were true to their party, rejecting all
offers of fusion, has been rejected and
trampled under foot. The party is
now in the hands of politicians and
tricksters who are willing to barter
away all the principles they ever pos-
sessed for the sake of office.

This is not all; the organization of
the Populist party is being destroyed,
and the whole outfit is gradually
being grafted into the silver wing of
the Democratic party. We ask those
Populists who prefer the Republican
to the Democratic party to consider
this matter. Why should a Populist
vote for a Democrat rather than a Re-
publican?

It is true that those Populists who
are out for office merely, will vote
for Democrats on the idea that "I'll
tickle you if you'll tickle me." But
it is to those Populists who have the
good of their country at heart, that
we appeal. Awaken your manhood!
Refuse to be driven around like cat-
tles! Vote your sentiments.

ABOUT 45 voters divided between
the free silver Democratic party and
the Peoples Party of Ohio county
have taken it upon themselves to dic-
tate exactly what the other 2,000 vot-
ers of their respective parties shall do
in regard to nominating candidates
for the various county offices. This
presumption upon their part seems to
us to be the grandest display of
"Bossism" ever perpetrated or ever
proposed to be perpetrated upon an
intelligent class of citizens.

Will our voters allow themselves
to be pulled and bowed around and
dictated to as is now proposed by
these "wire pulling office seekers,
would be bosses?" To explain, they
say to men of the free silver Demo-
cratic party you shall not become a
candidate for County Judge, Sheriff,
Assessor or Coroner as we will not
nominate any candidates for those
offices this year, as we have sold both

"To be or not to be," said Hamlet.
Silver Democrats these days find
themselves in the same frame of mind
the prophet Hamlet to make the
comment quoted. Indications point
strongly to the fact that silver Demo-
crats are not to be.

THE Republican House of Repre-
sentatives at Frankfort elected a col-
ored man clerk room keeper over sev-
eral white candidates, and yet our
English Contemporary is harping
about the Republican party not recog-
nizing the colored man. Our own
Jas. P. Thomas was a candidate for
the place and was defeated on the last
ballot. Mr. Lawson, of Louisville, was
elected.

THE Lexington *Argonaut* has al-
ways been an ardent advocate of free
and unlimited coinage of silver. The
editor of that worthy Journal has
been studying the subject recently
and has come out on the side of good
government, honest and a staple cur-
rency against repudiation, free silver
and a depreciated currency. It says:
"Free and unlimited coinage of sil-
ver, when it does not preserve its par-
ity with gold, cannot be a condition
in true bimetalism because in its ef-
fects it is directly antagonistic to the
system. Whenever practiced, it al-
ways results in monometallism, and
silver at that. Such is the case now
in all silver countries, as Mexico and
China, and such was the case in the
United States in the forty years prior
to 1873."

THE Populist committee of Ohio
county met at the Court House last
Saturday and talked over the fusion
arrangements in Ohio county. There
was considerable dissection in their
ranks; some of them objected to giv-
ing up their device of the "Plover and
Hammer," while others agreed to
give it up, and go into the Democra-
tic party. Some of the Democratic
wire pullers got into the meeting and
convinced the Populists that they
would have to vote under the rooster
and that a county could not change a
device, and, oh, the Democrats were
awful sweet on the Populist Commit-
tee. The Populists are fast realizing
that the Democrats are using them
as tools in this fight and ere many
more days are passed they will awake
to a complete realization of that fact.
In Davies county, the Democ-
rats will not countenance the Popu-
lists in any particular; they have
always cursed the Populists and now
do not propose to go into a coalition
with them, while on the other hand
the Populists know that the Democ-
rats have mislabeled them on every
occasion and they don't propose to
be hoodwinked in this matter. Every-
day there are new developments
in the fusion business.

AN ABLE ALLY.

No Republican would have dreamed
two years ago that the *Courier-Journal*
would ever be an able and powerful
ally of the Republican party.

Such however is the case. Mr.
Henry Watterson and the able edi-
tors of that paper, are now holding up
as an object of public scorn, the ar-
ticles of hargain and sale, better
known as fusion, now being entered
into, in the various counties of the
State, by and between the Populists
and Popocrats.

It is plainly shown that neither of
these two parties are actuated by
honorable motives, nor by a love of
party or principles. The emolument
of office is what they want; the prime
object being to get into office, no
matter how. The *Courier-Journal* to
be sure is not a Republican organ; it
is Democratic as strongly as in the
days gone by.

It has no love for the Republican
party. But when it comes to making
the offices of the State a matter of
hargain and sale it protests loudly
and strongly.

The *Courier* calls attention to the
proceedings of the Populists and Pop-
ocrats in Grayson and Breckenridge
counties. In these two counties, as
in other counties, the Populists get
the office of Representative. The office
of Representative is the only politi-
cal office to be filled by county
elections, because the Representatives
of the counties are called upon to
elect a U. S. Senator.

This shows plainly that no heed is
paid to principle. The time honored
foundation stones of the Democratic
party have been torn from their
places, and there is nothing left for
the party to rest upon. It is now
built upon sand and this parable in
holy writ concerning the man who
built a house upon sand, will apply
to the free silver wing of the Democ-
ratic party of to-day.

"BOSSISM."

About 45 voters divided between
the free silver Democratic party and
the Peoples Party of Ohio county
have taken it upon themselves to dic-
tate exactly what the other 2,000 vot-
ers of their respective parties shall do
in regard to nominating candidates
for the various county offices. This
presumption upon their part seems to
us to be the grandest display of
"Bossism" ever perpetrated or ever
proposed to be perpetrated upon an
intelligent class of citizens.

Will our voters allow themselves
to be pulled and bowed around and
dictated to as is now proposed by
these "wire pulling office seekers,
would be bosses?" To explain, they
say to men of the free silver Demo-
cratic party you shall not become a
candidate for County Judge, Sheriff,
Assessor or Coroner as we will not
nominate any candidates for those
offices this year, as we have sold both

your votes and those offices to the
Peoples party, while to the Peoples
party voters they say you shall not
nominate any candidate for Circuit
Clerk, County Clerk, County Attorney,
Jailer, School Superintendent or
Representative, as we have traded you,
your votes and those offices to the
free silver Democrats and we will not
allow anyone in your party to become
a candidate for either of the offices
named and to the 2,000 voter in the
two parties, they say you folks do
just as we say about this and ask no
questions. You free silver Democrats
shall vote for the Peoples party candi-
dates and you Peoples party voters
shall vote for the free silver Demo-
cratic candidates. We forty odd vot-
ers have decided you shall do this,
so there is no use in kicking, as we are
awful hungry for office and to secure
same have already decided that you
shall do as we direct.

The foregoing exactly oxymor-
izes the situation in Ohio county. Free
silver Democrats are ordered to cast
their votes for Peoples party candi-
dates for Judge, Sheriff, Assessor,
Surveyor and Coroner, who will be
nominated without a Democratic
vote, and Peoples party voters are
ordered to vote for free silver Demo-
cratic candidates for county offices
who will be nominated without any
Peoples party votes.

This is a "funny business" and the
bosses declare it so, but is it?

A Correction
The Hartford Herald of last week
says: "Preacher Gary, of color, who
has taken it upon himself to instruct
the colored people how to vote, has
succeeded in getting his article pub-
lished." The Herald knows very
well that I am not a preacher, and if
I was a preacher I would endeavor to
be truthful; they know I am a teach-
er, and had heard it said that all
preachers were teachers and they
aimed to deduce from that the logical
conclusion that all teachers were
preachers, but that is not so.

They want to make the article ap-
pear insignificant by insinuating that
it is nothing; having been written by
a negro preacher. But I would like
to inform them that we have preach-
ers of our race who are as intelligent
and as truthful as those of any race.

And I am a teacher of my race
and I claim to be one in all that the
name implies. My race to-day, to
some extent, has come up out of the
valley of desolation and degradation.
It stands at the entrance of a
great plain. Various are the plans
laid before it, and numerous are the
advisors presenting themselves as
guides, among those we find some of
the Democratic leaders. The right
direction to choose is now, the su-
preme question of the hour.

We, in common with the other citi-
zens of our country, are passing
through a great revolution. Old po-
litical issues are passing away into
their quiet graves, and new ones are
coming into being which we hope
will unify the country and accord to
every man that equal justice to which
the laws of nature and nature's good
entitles him. Great economic ques-
tions are being presented for adjust-
ment and solution. And into this
active contest I have thrown myself
because I read and keep in sight of
the current issues, and a majority of
my race don't do it, and when I at-
tempt to set my race a right on an
issue I am branded preacher and un-
true by a Democratic paper, which
represents a party who has always
been an enemy to the race and has
never done anything for the good of
the race except when they were com-
pelled to do in subservience of their
own good.

Now as to what the Herald man
said about publishing my article. I
can say fearlessly of successful con-
tradiction that there was nothing said
about eliminating misstatements or
untruths, nor curtailing it one-half,
and I will be frank enough to say
that there was nothing said about
two sticks. But if I had have said I
sold a peck of corn and the Herald
had said it was a loush or a bushel
I would have entered against it, be-
cause it would have only been a dif-
ference of expression and not in
quantity. He requested that the ar-
ticle be curtailed to two pages, which
was equal to two sticks. He said
also the reason he would not publish
the article was because it contained too
many glaring untruths and misstate-
ments. If he had have pointed out
the untruths and misstatements I
could argue the question with him,
but as he failed to do that, feel by it
as though a mule had kicked but had
hit nothing.

March, April, May.

Almost every one has come to be-
lieve that March, April and May is a
season that brings derangements of
the body dependent on blood impuri-
ties. This belief is an old one, is
nearly universal, and has arisen, not
as the result of the teachings of the
medical fraternity, but has been
learned in the bitter school of expe-
rience. Depression of the nervous
system at the approach of spring is a
fertile source of blood impurities,—
general lassitude, dull, heavy sen-

irregular appetite, and sometimes loss
of sleep.

EDITOR REPUBLICAN:—I noticed in
last week's issue of the REPUBLICAN
an article from Westerfield, Ky.,
signed "K. H. M." in regard to the
fusion deal gotten up by the Demo-
cratic and Populist committees of
Ohio county. I have never been con-
sulted on the matter and I want it
distinctly understood that I am a
Populist, but formerly voted the
Democratic ticket, and I wish to say
furthermore that I do not propose to be
traded off like I was a dumb beast,
and before I will vote any fusion deal
I will stay at home or else I will go
to the polls and vote the Republican
ticket. It is surprising to me that
our Populists party would go into
such a wholesale trade of principles
as this. When we left the Demo-
cratic party it was corrupt and it is
the same party now that it was then,
and I cannot see how any Populist
can vote that ticket. I agree with
"K. H. M." that we should profit by
past experience with the Democrats
and should shun them and go it
alone, even if we lose. Our prin-
ciples are at stake and by going it
alone we will not have to compromise
our principles and then be defeated.
Every Populist in the county should
attend the County Convention and
nominate a full ticket for county of-
fices, if not I will do all I can to defeat
the fusion deal.

The Portland Business.
Young Foster Howard, who left home to see the world the first of last week, saw all he wanted without going farther than Henderson, and returned home yesterday morning.

The Henderson papers yesterday had great big five-pyramid scare headlines and column accounts of Foster's troubles over \$1.25 board bill, and his arrest and release on bond.

The matter was given a very much more sensational tinge than the facts justified, and it did not take long for Mr. Kinch Howard, Foster's father, to straighten things out when he reached Henderson.

He brought his son home yesterday morning.

Foster is a bright boy, and his wandering Willie experience has doubtless done him a world of good.

Dr. J. H. Boyet will begin a series of meetings at the Baptist Church next Monday night. Dr. Boyet is very pleasantly remembered by Hartford people, having conducted a successful revival at this place a few years ago. He will no doubt be greeted by large audiences each night.

The following named persons have paid their subscription to THE REPUBLICAN since our last issue:

J. D. Rinder, Morgantown; Anthony Walker, J. E. Fogle, S. S. May, Dr. W. S. Williams, Hartford; Isaac Daniel, Westfield; L. T. Barnard, Beaver Dam; Dr. S. J. Wedding, Silphur Springs; Dr. W. P. Westfield, Rochester; S. W. Rowe, Centertown.

It is now an assured fact that we will have another boat in Rough river in a short time and the subscription has been completed for a long distant telephone to connect at Owensboro. Hartford is now putting on metropolitan airs and the next thing to happen will be a railroad running into our midst. There will be two new brick business houses erected in the early spring.

Ohio County Tired.

Trol J. C. Norwood, State inspector of mines, will soon make his report for the past year. During that period there were mined in the state of Kentucky, 3,128,818 tons of coal. Of this amount Hopkins county mined 777,181 tons, or nearly one-fourth the coal of the State. Whitley county mined 422,837 tons. Ohio county was third, with 368,094 tons. Laurel fourth, with 288,493 tons, and Muhlenburg fifth, with 256,268 tons. Our coal interests are of vast importance, not only to us but to the whole State.

Crossed on the Return to Mexico.

Col. Craddock, the veteran editor of the Paris Kentuckian, says of his recent trip to Mexico in company with the National Journalists:

"When the hill of fair on our train was handed around after crossing into Mexico, we were shocked at prices until we realized that it doubled in price because of money being worth half of ours. Think of 30 cents for two eggs, which only cost in United States same as in Mexico. It's strange that eggs which cost one cent and only a quarter of a cent to boil, should command fifteen cents or thirty cents when cooked. Said a lady: 'These eggs I have boiled in my valise cost less than one cent each,' still most of the ladies preferred adding to their lunch basket from the restaurant on cars to paying \$1 for the ordinary meals at eating stands. Water, 10 cents, (20 cents Mexican) for coffee, or 30 cents soup. They were not as bad in the soup as the miserable meals set by the Chinese at dinner stands, which had become cold by our train being delayed. After paying for supper, a dollar, I came back into the car to pay 20 cents for a glass of milk, as that at the meal stand was sour. After crossing into Mexico we stopped for breakfast, and there was such a rush for the regular stand that I called at a restaurant where a number of bright ladies were waiters. In my best Spanish I told them that I was an American soldier in the City of Mexico nearly fifty years ago, and was an old bachelor, true to a Mexican senorita, who had sent me word I could have her granddaughter. This pleased the ladies so they tried to be especially courteous in giving me an extra meal."

Gold standard the latest.

Another has been added to the gold standard nations of the world, Japan has just decided to drop silver and adopt the gold standard. From time immemorial silver has been the standard money of Japan as it is today of China, but after October next the standard will be gold and the ratio fixed between gold and silver is 3 1/2 to 1, about the commercial ratio. This conclusion has been reached pursuant to action of Parliament taken four years ago. A commission of 15 eminent statesmen, bankers, and professors was appointed to make a study of the question and report their conclusions on the following three questions: First, the causes and effects of the recent change in ratio between gold and silver. Second, the effects of the change on Japan. Third, whether such change necessitated the reform of the currency of Japan, and, if so, to determine what new standard of currency should be adopted and how it should be done. After an exhaustive study of the subject covering four years or thereabout, the commission has made its report and action has been taken as stated. The silver countries are so few and unimportant as to render it the height of folly for any country to return to the silver standard without concerted action of the nations with which its commerce is carried on. The action of Congress in empowering the President to appoint a commission to act in concert with like commissions from the principal nations of Europe in an effort to effect an agreement by which the restoration of silver to its former position may be safely effected, and the expressed acquiescence of the President in the movement gives hope that something in that direction may be accomplished. That an earnest effort will be made we may rest assured. Senator Wolcott, just returned from his European trip, is of the opinion that the prospect is good for such an agreement. By this means free coinage of silver may become a safe and desirable measure. Without such concerted action it must inevitably prove disastrous.—[Paducah Sun.]

Resolutions on the Death of Dr. Pendleton.

The Daviess County Confederate Association held its regular quarterly meeting yesterday afternoon at the courthouse, the principal business transacted being the adoption of resolutions in memorial to the late Dr. J. E. Pendleton, of Hartford, and Charles Elder, of this city.

The resolutions in each instance were somewhat long, and paid touching tributes to the memory of the dead veterans.

The resolutions on Dr. Pendleton's death were as follows:

The undersigned appointed by the Daviess County Confederate Association to prepare resolutions touching the death of Dr. J. E. Pendleton, report that they feel their utter inability to do justice to the life and character of their dead comrade.

John Edward Pendleton died in Hartford, Ky., on the 31st of January 1897, aged sixty-six years. He was descended from Philip Pendleton, a younger son, who came to Virginia from the city of Norwich in England, more than two hundred years ago.

He was born in Washington county, Kentucky, and graduated from the University of Louisville in 1854, and also from the Jefferson Medical College, Philadelphia, practicing his profession in Hartford until the commencement of the civil war, he then raised a company of Infantry and joined the 6th Kentucky Infantry, Confederate Army. Soon made surgeon of the regiment and then Brigadier-Surgeon he served as such until appointed on Gen. Breckinridge's staff, with whom he remained until after the battle of Stone River. Then Chief Surgeon of Maj. Gen. Martin's Division of Gen. Wheeler's Corps, he was with it in every battle until the close of the war. Returning home, he was met with a universal welcome Republicans vying with Democrats in testifying their respect and esteem. From that time until his last illness he was extensively engaged in his practice gaining a reputation for skill and ability that extended far beyond the borders of Kentucky.

The celebrated Dr. Vandell is quoted as saying that if he had an exceedingly difficult surgical operation to perform there was no man west of the Alleghany mountains whom he would prefer as an assistant to Dr. Pendleton.

Fortune had dealt with a lavish hand her choicest gift to him. To a strong intellect, to a thirst for knowledge never satisfied, to stainless honor and dauntless courage, was added the most attractive manners and a person so striking that an old soldier said that on the battle field of Murfreesboro John E. Pendleton was the handsomest man his eyes ever beheld.

The wonder was often expressed that he confined his unsurpassed talents to so narrow an arena, when in a greater one wealth and national fame had inevitably been his reward.
